

Job Title: Mechanical Engineering Technician

Job Overview:

Delta Scientific Corporation, the world's leading manufacturer of crash-rated anti-terrorist vehicle barricade systems, is seeking a **Mechanical Engineering Technician** to support our Research & Development team. This role is ideal for a hands-on, detail-oriented individual with a strong mechanical or automotive background.

Key Responsibilities

- Support engineering team with design, modeling, and development of mechanical and hydraulic systems
- Assist in hydraulic system layout, component selection, and system integration
- Troubleshoot mechanical and hydraulic system issues and recommend improvements
- Collaborate with engineers on prototype development and testing

Qualifications

- Strong mechanical aptitude with hands-on technical experience
- Working knowledge of hydraulic systems (pumps, valves, cylinders)
- Strong problem-solving skills and attention to detail

Preferred Experience (Not Required)

- Proficiency in SolidWorks or similar CAD software
- Experience in R&D or product development environments
- Familiarity with fabrication processes (machining, welding, assembly)

Position Details

- **Pay:** \$20–\$26/hour (depending on experience)
- **Employment Type:** Full-Time
- **Experience Level:** 5+ years preferred (not required)
- **Education:** High School diploma required
- **Career Level:** Experienced (Non-Manager)
- **Travel:** Occasional travel may be required

Pay: \$20.00 - \$26.00/hr, DOE

Delta Scientific Corporation is the world's leading manufacturer of vehicle access control equipment. Delta Scientific has been engineering and manufacturing vehicle access control equipment and selling its products worldwide since 1974. From our pioneering innovations to our unwavering commitment to security, our history reflects decades of excellence and growth.
