
*****PAY RANGE: \$16.50 - \$18.00/HR*****

WORK SCHEDULE: DAY SHIFT (Monday – Friday, 6:00AM – 2:30PM)

Job Title: Entry-Level Welder

Job Overview

Delta Scientific is seeking an **Entry-Level Welder** to join our dynamic team. The ideal candidate will possess a strong understanding of welding techniques and safety standards, with the ability to work effectively in a fast-paced environment. You will be responsible for fabricating and assembling metal structures, ensuring high-quality standards are met while adhering to safety regulations.

Responsibilities

- Perform welding operations using various techniques including MIG, TIG, and stick welding.
- Read and interpret blueprints, schematics, and technical drawings to determine project specifications.
- Assemble components by welding, soldering, or using other fastening methods.
- Operate power tools and equipment safely and efficiently.
- Conduct inspections of completed work to ensure compliance with codes and standards.
- Utilize basic math skills for measurements and calculations related to welding tasks.
- Thread pipes as required for specific projects.
- Rig materials for lifting and transport as necessary.
- Maintain a clean and organized workspace while adhering to safety protocols.

Requirements

- Proven experience as a Welder or in a similar role is preferred.
- Proficiency in reading blueprints and schematics is essential.
- Familiarity with welding codes and standards is highly desirable.
- Ability to operate forklifts and other machinery safely.

- Basic math skills for accurate measurements and calculations.
- Knowledge of pipe threading techniques is a plus.
- Strong attention to detail with an emphasis on quality workmanship.
- Excellent problem-solving skills and the ability to work independently or as part of a team.
- Commitment to following safety guidelines at all times.

Work Environment:

- Works in a shop setting.
- Exposure to high temperatures, fumes, and noise.
- Requires use of personal protective equipment, such as gloves, helmets, goggles, and respirators.

Education and Experience:

- High school diploma or equivalent.
- Welding or fabrication training through technical schools, apprenticeships, or on-the-job experience.
- Certification in welding processes is an advantage.

Pay: \$16.50 – \$18.00/Hr., DOE
