

Job Title: Welding Fabricator (2ND SHIFT ONLY)
WORK SCHEDULE: Monday – Friday (2:30PM – 11:00PM)

Job description:

The MIG Structural Welder will be responsible for welding and fabricating heavy steel security barrier systems. This position requires proficiency in MIG welding for structural applications, the ability to interpret blueprints, and a commitment to high-quality workmanship.

Key Responsibilities:

- Perform MIG welding on structural steel components and assemblies.
- Read and interpret blueprints, welding symbols, and fabrication drawings.
- Set up welding machines and adjust settings for various thicknesses of steel.
- Fabricate, fit, and assemble heavy steel parts to precise specifications.
- Inspect completed welds for strength, quality, and conformance to standards.
- Operate cutting torches, grinders, and fabrication tools as needed.
- Follow all safety protocols, including PPE use and shop safety standards.

Qualifications:

- High school diploma or equivalent required.
- 3+ years of structural MIG welding experience preferred.
- Strong knowledge of structural welding practices and techniques.
- Ability to read and work from blueprints and welding symbols.
- Must be able to lift up to 50 lbs. and work in a manufacturing environment.
- Vertical-Up (Uphill) Welding.
- Strong understanding of converting decimals to fractions.

Starting Pay: \$18.50/hr, DOE
